

Helix Company Manifesto

Helix.

This is what Helix stands for, believes in and works towards achieving every day.

1

We are in the business of people

7

We won't even break a promise, probably because we don't make them. We just do as we say we'll do.

2

Because of our people, we drive, we dare and we deliver.

8

We don't do bland, ordinary or basic.

3

We know what exceptional service and impassioned client delivery is all about. You. Us. A team.

9

We will never step away, why would we when the business we're in thrives off creativity, passion and dedication?

4

Putting people first means we get who you are, what you want and what you need.

10

We don't just play to win, but we win. Decades into the game and we've created something great that benefits everybody.

5

In fact, we are three steps ahead so you don't even need to ask. It's already done.

11

We will never compromise on bringing talent into the Helix family. We're different, diverse and proud.

6

But we believe it's not just what you get done that matters, it's what you don't and won't do.

12

Most importantly; we won't ever let you down because we are Helix.
